

# How to change i-MSCP database SQL user password?

## Series prior 1.3.x

Run the following commands as root user:

```
# dpkg-reconfigure mysql-server-5.5  
# perl /var/www/imscp/engine/setup/imscp-setup -dar sql
```

You must adapt the **dpkg-reconfigure** command according the SQL server/version you're using.
