

PanelRedirect Plugin

Plugin redirects apache2 requests of the panel to nginx.

Requirements

- i-MSCP \geq 1.2.0

Installation

- Download the **PanelRedirect** plugin archive from the [plugin store](#)
- Login into the panel as admin and go to the plugin management interface
- Upload the **PanelRedirect** plugin archive
- Click on the **Update Plugins** button
- Activate the plugin

Update

- Backup your current config file **plugins/PanelRedirect/config.php**
- Download the **PanelRedirect** plugin archive from the [plugin store](#)
- Login into the panel as admin and go to the plugin management interface
- Upload the **PanelRedirect** plugin archive
- Restore your **plugins/PanelRedirect/config.php** (compare it with new config file first)
- Click on the **Update Plugins** button in the plugin management interface

Configuration

Edit the plugins/PanelRedirect/config.php:

- type (redirect, proxy) \Rightarrow Define the redirection type (Default: redirect)

Authors
