Postscreen	Plugin allowing to use Postscreen with Postfix on i-MSCP.
RemoteBridge	Plugin providing an API which allows to manage i-MSCP accounts.
RoundcubePlugins	Plugin allowing to use Roundcube Plugins with i-MSCP.
SpamAssassin	Plugin allowing to use SpamAssassin with i-MSCP.

Testing/staging plugins

Until a plugin is released, it will be stored into the incubator folder of the plugins repository, you can see them following this link here

If the plugin is developed from someone without commit rights to the i-MSCP github repository, there will be probably a forum entry for it here
